Art.-Nr. 988171

Profile
Combo insulation mounting profile, 2 m, white

The patented DEKO LIGHT COMBO PROFILE SYSTEM is a new, easy-to-install profile-in-profile solution for mounting light lines in façades, gardens, living rooms and much more.

The COMBO insulation mounting profile is used for easy installation of the recessed profiles in heat insulation and can be equipped with all profiles from IP44 to IP68 once the surfaces have been finished.
